

Platinum High Definition Antenna

Introducing the new Hills Platinum High Definition (PHD) antenna specifically engineered for Australian digital channels.

The PHD antenna is HD & SD digital compatible and it is designed with strong aluminum boom & elements for superior corrosion resistance.

Added features include:

- Suitable for channels 6-12 & 28-36
- Capital City Digital Channels
- Reduce Impulse Noise
- Ultrasonically Sealed PCB F type housing
- Clamshell insulators to provide positive element locking
- Compact and lightweight
- Quick and easy site installation
- Designed and made in Australia for Australian conditions
